Election

Pursuant to the present Office Action mailed July 19,2005 the Examiner has separated the claimed invention into 219 groups. *See*, Office Action No. 7142005, pages 2-4. The Examiner contends that the 219 groups of inventions are independent and/or distinct, each from the other, and has required an election under 35 U.S.C. § 121. Furthermore, the Examiner has required election of a single polypeptide sequence. *Id.* at 4.

Applicants elect Group 35, drawn to the isolated polypeptide of original claims 11, 12 and 16 (now canceled), which encompasses newly added claims 25-45, drawn to, *inter alia*, isolated SEQ ID NO:45 polypeptide and the polypeptide encoded by the HNGBV36 cDNA contained in ATCC™ Deposit No. 209074. Applicants submit that newly added claims 25-45 fall within the scope of Group 35 as defined by the Examiner. Applicants reserve the right to file one or more divisional or continuation applications directed to non-elected inventions should the restriction requirement be made final.
